**TREATMENT AND DISPOSAL OF ACCUVAC LIQUIDS - MCB-026-94**

The liquids in the used Accuvac vials generated by Ground and Surface Water Programs have been determined to be Resource Conservation and Recovery Act (RCRA) Hazardous Waste due to levels of Cadmium. Due to the fact the Decontamination Facility is in the process of being removed from the RCRA Part A Permit, it can no longer accept this liquid into its system. The Operable Unit 2 Interim Measures/Interim Remedial Action water treatment facility is capable however of treating this liquid effectively. Please request concurrence from the Colorado Department of Health for this change to the Decision Document.

If you need additional information, please contact Ty Vess at extension 6540 or myself at extension 8517. Thank you for your support in this matter.
